HSE POLICY

Rawabi Specialized Contracting Company (RSC) places the protection of the environment and the creation of safe and healthy working conditions at all work places as the highest priority in developing a corporate strategy. The company focuses on improving safety performances and embracing a safety-first culture. It sets all expectations for all employees at all levels to achieve our workplace safety goals through HSE requirements.

The following basic safety provisions must be followed and committed to by all employees:

- Fulfill our compliance obligations and comply well with applicable HSE legal requirements and other requirements as implemented in the company
- Provide safe and healthy working conditions for the prevention of work-related injury and illness
- Promote environmental protection and prevention of pollution within the company
- Reduce, and strive to eliminate, the environmental impacts associated with company's activities, operations and services
- Proactively identify all potential risks at work places and implement effective control measures to eliminate hazards and reduce Occupational Safety and Health (OSH) risk
- Enhance environmental performance by reducing the waste generation and disposing all types of wastes in an environmentally safe manner
- Consult employees, workers or their representative and foster participation from all levels of the organization to support an effective implementation of the HSE Management System, its policies and objective
- Create HSE awareness among all employees through training to maximize their HSE skill and competence and to convey the implication of violating environmental policy and IMS
- Respond positively to the concerns of all interested parties including neighbors, local community and law enforcing authorities

The company will ensure that the HSE policy is understood by all employees and incorporate safety performance expectations into all positions.

The top management supports this policy and ensures that it is implemented at all levels. The HSE Policy will be reviewed at regular intervals.

Abdullah Al Sayed
RSC General Manager
